INTO 2014 - Social Media & Tourism Industry CV Mr. Fernando Guerrero

Fernando G. Guerrero is a co-founder of SolidQ, elected as its first CEO, and now serving as Global CEO and President of the Board. In this role, Fernando is responsible for global strategy and policies of the company, coordinating the CEOs of each subsidiary, as well as the team of Global Corporate Directors.

Fernando graduated as a Civil Engineer, Polytechnic Universities of Valencia and Madrid, and followed post-graduate courses in Business Administration at different business schools and universities. He holds over 30 years of professional experience in architecture, design, and development of IT systems, very often as part of high-end international engineering projects. He is a recognized speaker at many international Conferences about Microsoft technologies.

Fernando has been a Microsoft Regional Director for Spain since 2004, holding several Microsoft certifications, and received the MVP award for SQL Server from 2000 to 2007. Fernando is also involved in voluntary work around IP Protection and support to Small and Medium Enterprises (SMEs), collaborating with public institutions and universities from Spain and the European Union, such as his role as member of the Board of Directors of ACT (Association for Competitive Technology).
